Back from the Brink

A set of seven endangered British Wildlife designs created in partnership with Back from the Brink, an ambitious conservation project focussed on bringing some of Britain's most threatened species of animals, plants and fungi back from extinction. Stitch these designs to raise awareness or for fundraising, the designs include the Willow Tit, Pine Marten, Grey Long-eared Bat, Pheasant's-eye, Interrupted Brome, Shril Carder Bee and Chequered Skipper.

Interrupted Brome

This grass was discovered in the UK in the 1840s and, apart from accidental introductions, has never been found anywhere else in the world. Unfortunately, by 1972 it was extinct. Seed had been collected, however, and now there are a small number of sites where it has been reintroduced.
